COMPREHENSIVE REVIEW No.: 2016399
COMPREHENSIVE REVIEW DATE: June 29, 2016

Cam Morris
Arthur Brundage Inc
41 Orchard Street
Oneonta, NY 13820

Dear Mr. Morris,

This letter is to notify you of the results of the above referenced Transportation Safety Exchange - Comprehensive Review (TSX-CR) recently conducted at your facility. A copy of the TSX-CR report is attached for your review.

During the TSX-CR investigation, compliance with applicable regulations and safety management controls was evaluated in six rating factors (five factors are applicable for non-HazMat motor carriers) as established by the TSX program. Results were combined with on-road performance information received from FMCSA to calculate overall factor ratings.

The TSX Program factor and overall factor ratings range from 1.00 to 5.00, with 1.00 established as the highest (best) rating. In accordance with TSX program standards, your overall factor rating is **1.40**. This rating entitles you to be listed as a **TSX Approved** motor carrier on the TSX Motor Carrier Network.

The TSX-CR report documents your compliance with safety regulations and management controls. If weaknesses are identified, the report is designed to guide you to initiate appropriate corrective action. In this way, TSX Approved motor carriers will continuously improve their culture of safety.

TSX will continue to monitor your on-road performance each month as reported by FMCSA. This data may impact individual factor ratings and your overall factor rating in the future. In the event that this process affects your TSX approval status, you will be notified immediately.

Congratulations on becoming a TSX Approved motor carrier! Your approval status indicates your dedication to quality and demonstrates to our subscribers your commitment to safety compliance.

If you have questions regarding the TSX-CR or the TSX Program, please e-mail me at bwatkins@css-dynamac.com or call me at 855-890-8879.

Sincerely,

Brad Watkins,
TSX Program Director
